Exploring Global Markets with Precision and Purpose

At Abans Financial Services Ltd. (AFSL), we are building the next-generation platform for borderless capital, risk-aligned lending, and institutional-grade asset management. Founded in 2009 and listed on the BSE and NSE since 2022, AFSL has evolved from a nimble trading firm into a publicly listed, multi-asset financial institution, trusted by clients for precision, compliance, and long-term value creation.

Our operations today are strategically concentrated in three financial epicentres:

1

United Kingdom: Home to two FCA-regulated entities, we offer seamless institutional execution, broking, and payment services for global financial participants.

2

Mauritius: Our offshore vehicles including our flagship global arbitrage fund are domiciled here.

3

GIFT City, India: AIF registration and fund management presence in India's emerging international financial hub reflects our commitment to local innovation with global scale.

We serve clients through three synergistic verticals:

1

Fee-based Investment Services

Institutional broking, global fund distribution, PMS, and AIF structures — delivering scalable, compliant, and high-performance wealth solutions to HNIs, family offices, and institutions.

2

Lending and Credit Solutions

Credit that serves real economy needs, enabled by our RBI-registered NBFC. Our lending engine is disciplined, risk-mitigated, and built on zero-NPA credibility.

3

Investment and Treasury

We manage proprietary capital with institutional controls, supporting liquidity, strategic investments, and yield optimisation across asset classes.
